	<i>Vintage Notes</i>	2019's mild weather was very similar to 2018. A significant amount of rainfall compared to previous years was helpful in re-supplying the soil and plants with much needed water. Spring was cool with no major frost events and delayed budbreak by 2 weeks (similar to 2018). We had a good set, and mild summer temperatures allowed for a slow steady growing season that promoted full cane lignification and balanced ripeness of fruit. There were a few heat spikes in September, but they only lasted a few days and returned to normal/cooler temperatures. Harvest started late August and was finished by mid November. 2019 was a very healthy harvest with potential for super high quality wines.
